

Quality Policy

Operating from a state-of-the-art asphalt plant in Narangba Suncoast Asphalt produces a wide range of asphalt products for commercial and residential services clients across south-east Queensland.

Its experienced team of 60 employees provide high-quality profiling, maintenance and spray sealing services, and are well known for delivering reliable asphalt coring and testing services. Utilising an extensive fleet of trucks, paving equipment and the largest fleet of flocon maintenance units in Brisbane, Suncoast Asphalt provides highly responsive utilities maintenance services, 24 hours a day.

With a strong focus on growth, Suncoast Asphalt strives to provide its valued customers with high quality, excellent workmanship, and on-time delivery.

Our Goal

The Suncoast Asphalt aims to be the leading supplier within each of its businesses area of expertise. We will enable this by having comprehensive and user-friendly business processes that can be replicated across geographies and like applications to provide consistency in the quality of the product and services we provide.

Our aim is to grow and improve our businesses by consistently meeting the requirements of our customers and other key stakeholders with our promise of sustainable solutions. To achieve this aim, we will identify and meet their expectations, needs and requirements.

Making it Happen

Quality goals are achieved through the implementation of a Quality Management System which complies with AS/NZS ISO 9001 quality standard and other accreditation standards where applicable (e.g. NATA AS ISO/IEC 17025). Our system ensures that effective controls are consistently applied to our work processes, and provides a record of our quality-related activities.

We are committed to maintaining, and continually improving this system. All employees and suppliers are invited and expected to share in this commitment. We will make our Quality policy freely available to all interested parties such as employees, contractors, suppliers, visitors and members of the public.

Management will provide resources and ongoing training to equip all of our employees with the necessary skills and knowledge to support our customers and the business goals.

Our Commitment

We are committed to a policy of continual improvement, with measurable quality objectives established and periodically reviewed, to ensure that the quality of services we offer continues to meet our customer's needs and expectations.

All activities will conform to all contractual requirements agreed with the customer, comply with statutory and regulatory requirements and be focused on health and safety.

Any suggestions that may assist us to achieve our aims are welcomed.

Peter Murphy
Managing Director
